CAREER OBJECTIVE

A motivated and detail-oriented professional seeking a **Data Analyst** role where I can apply my hands-on experience in **business operations, inventory management, and data-driven reporting** to deliver meaningful insights. With strong proficiency in **Excel, Power BI, MySQL, Python, and Statistics** — backed by an **AccioJob Data Analytics Course (NSDC Certified)** — I aim to help organizations make smarter, faster decisions while growing as a data professional in a challenging and collaborative environment.

PROFESSIONAL SUMMARY

Results-driven professional with **3+ years of experience** in Parts Management, Inventory Control, Warranty Administration, and Business Reporting at a **New Holland dealership**. Skilled in translating raw operational data into actionable insights using **Microsoft Excel, Power BI, MySQL, Python, and Statistical Analysis**. Completed **7 real-world analytics projects** spanning Sports, Sales, Retail, Hotel, Weather, and Education domains.

- **Business Domain Expertise:** Deep understanding of supply chain, demand forecasting, inventory optimization, and profitability analysis from real dealership operations.
- **Technical Proficiency:** Hands-on experience building dashboards, writing SQL queries, performing EDA in Python, and applying statistical techniques for data interpretation.
- **Transition Strength:** Rare combination of operational business exposure and structured analytics training — able to bridge raw data and real business decisions.

TECHNICAL SKILLS

- **Microsoft Excel (Advanced)**
 - Formulas & Functions: VLOOKUP, HLOOKUP, INDEX-MATCH, SUMIF, COUNTIF, IF/AND/OR/NESTED
 - Pivot Tables & Charts, Data Validation, Conditional Formatting, Power Query
 - Data Cleaning Techniques, Dashboard Creation, What-If Analysis
- **SQL / MySQL**
 - DDL, DML, DCL — CREATE, INSERT, UPDATE, DELETE, SELECT
 - JOINS (INNER, LEFT, RIGHT, FULL), Aggregate Functions, GROUP BY, HAVING
 - Subqueries, Nested Queries, Window Functions, Stored Procedures, Normalization
- **Python for Data Analytics**
 - Libraries: Pandas, NumPy, Matplotlib, Seaborn
 - Data Cleaning & Transformation, Exploratory Data Analysis (EDA), Data Visualization
 - Loops, Functions, OOP Basics, File Handling, Lambda & Map Functions
- **Power BI**
 - Data Connections, Power Query, Data Modelling, Relationships
 - DAX Functions & Measures, KPI Cards, Interactive Dashboards & Reports
 - Data Visualization, Slicers, Drill-Through, Publishing & Sharing Reports
- **Statistics for Data Analytics**
 - Descriptive Statistics: Mean, Median, Mode, Standard Deviation, Variance
 - Data Distribution, Correlation Analysis, Trend Analysis, Predictive Analysis Fundamentals
- **Domain & Professional Skills:** Inventory Management, Parts Sales, Warranty Processing, Demand Forecasting, Vendor Coordination, CRM, Management Reporting, Process Improvement

PROFESSIONAL EXPERIENCE

Parts Manager

June 2023 – Present

Sri Murugan Tractors (New Holland Dealership), Trichy

- Managed complete parts department operations including **inventory control, stock planning (on/off-season), audits**, and optimization for sugarcane & combine harvesters.
- Processed and monitored **warranty claims**; handled takeover documentation, invoicing, billing, and emergency spare parts support during peak harvest seasons.
- Analyzed **purchase costs, sales revenue, and profit margins**; prepared detailed management reports used for strategic decision-making.
- Coordinated with **suppliers and service teams** to ensure uninterrupted parts availability and superior customer satisfaction.
- **Key Achievements:** Received **Parts Sales Achievement Certificate & Appreciation Certificate** for outstanding performance and improved inventory availability.

PROJECTS

Sports Analytics Project — Excel, Power BI, Python

- Analyzed player and team performance datasets; built interactive dashboards to track KPIs and identified key factors driving team success.

Sales Analytics Project — Excel, Power BI

- Evaluated regional and product-wise sales performance; analyzed revenue growth trends and developed management dashboards for strategic decision-making.

Retail Analytics Project — Excel, Power BI, MySQL

- Studied customer purchasing behavior and product performance; analyzed inventory turnover and sales patterns to generate profitability improvement insights.

Movie Rental Analytics Project — *MySQL, Excel*

- Analyzed rental transactions and customer behavior; identified top movie categories and rental trends using SQL queries for BI reporting.

University Success Analysis Project — *Excel, Power BI, Python*

- Performed EDA on university datasets; identified factors influencing student success and created visual performance dashboards.

Hotel Booking Analysis Project — *Excel, Power BI, Python*

- Analyzed booking patterns and cancellation trends; evaluated seasonal demand and customer preferences to generate actionable insights via dashboards.

Weather Data Analysis Project — *Python, Excel, Power BI*

- Performed trend analysis on temperature and rainfall data; applied statistical techniques and created visual forecasting reports.

EDUCATION

B.E. – Electrical & Electronics Engineering

April 2017

J.J. College of Engineering & Technology (JJCT) · CGPA: 6.58 · First Class

Higher Secondary (12th Standard)

March 2013

Government Higher Secondary School · 884 / 1200

Secondary School (10th Standard)

March 2011

Government Higher Secondary School · 435 / 500

CERTIFICATIONS

- **Data Analytics Course — AccioJob** (NSDC / Skill India Certified · 6 Months · Excel | SQL | Python | Power BI | Statistics | Business Analytics)
- Microsoft Excel for Data Analysis Certificate
- Dashboard Creation in Excel Certificate
- MySQL Database Fundamentals Certificate
- Python Developer Participation Certificate
- Power BI Data Visualization Certificate
- Statistics for Data Analytics Certificate
- AutoCAD Workshop · NSS "A" Certificate · NSS Special Camp Certificate
- Parts Sales Achievement Certificate · Appreciation Certificate

STRENGTHS

- Strong analytical and problem-solving skills
- Quick learner with adaptability to new technologies
- Attention to detail and accuracy in data handling
- Good teamwork and communication skills

WEAKNESS

- Sometimes I spend extra time checking data accuracy to avoid errors, but I am improving my time management skills.

HOBBIES

- Exploring data visualization and dashboard designing
- Learning new data analytics tools and technologies
- Reading business and technology-related articles
- Solving logical and analytical puzzles

ADDITIONAL INFORMATION

- **Availability:** Immediate Joiner | Willing to Relocate Internationally (India & Abroad)
- **Work Mode:** Open to Remote / Hybrid / On-Site Opportunities
- **Licenses:** Two-Wheeler & Four-Wheeler Driving License | Passport Holder
- **Languages:** Tamil, English
